

**Massachusetts Chapter of the Committees of Correspondence for Democracy and Socialism:
*Solidarity with Saint Vincent Nurses***

The Massachusetts chapter of the Committees of Correspondence for Democracy and Socialism stands in solidarity with the courageous nurses on strike in Worcester against the greedy Tenet Corporation, and its disdain for its patients and workers. Your resistance to corporate aggrandizement is an essential component in our mutual fight for healthcare justice. We resolve to use our resources to help mobilize the forces needed to win this battle. We recall the epic 2000 strike and look forward to celebrating one more victory over marketplace medicine. Thank you for your inspiring example!
